

REMOTE LOGISTICS

G4S Risk Management

G4S specialises in complex or remote logistics on four continents including Africa. Drawing on their security expertise and leveraging their established physical presence in over 100 countries, G4S coordinates last mile logistics networks across the globe for a wide range of clients. Our global footprint allows us to deliver and collect from remote locations around the world.

ABOUT US

Backed by the global corporate footprint and purchasing power of G4S plc, G4S Risk Management is a leading provider of risk mitigation, secure support services and integrated solutions to governments, international agencies and multinational corporations, wherever they may operate.

G4S International Logistics (G4Si)

G4Si is the global logistics division of G4S plc, the world's leading security solutions company. They have decades of experience managing the complexities faced by gold and silver mines, precious metals refineries, physical bullion trading clients, fine art, diamonds and jewellery and all manner of customers that require responsible and secure handling of valuable goods.

Their three main areas of expertise are:

- **Commodities:** G4S picks up raw or processed precious metals from mine sites across the world, no matter how remote. They provide logistics and storage services for platinum, silver and gold bullion and ore, platinum group metals, as well as gold and silver coins and blanks.
- **Fine Art:** Their teams are trained to anticipate risk and implement skilful solutions with care and efficiency. They are in a unique position to leverage their global G4S contacts, to ensure the most efficient and secure transit of art is available anywhere.
- **Diamonds and jewellery:** They are leading experts in the transport of rough and polished diamonds. Their bespoke jewellery services include secure pick up from jewellery districts across the world.

G4S Logistics specialists

- G4S has the ability to deliver and collect from remote locations around the world, offering partnering options for road haulage, sea freight, fixed wing and rotary air charter, motorcycle and on-foot requirements.
- This specialist service, by the largest security company in the world, also features tracking and armoured secure logistics options, Standard Operating Procedures and supply chain-wide risk assessments for each shipment.
- The integrated and expansive supply network of local G4S companies and best-in-class suppliers ensures global governance and compliance models are applied in all local legislative environments.

Customised solutions for forward and reverse logistics include:

- Shipments with specialist handling requirements
- Last mile logistics in low transport infrastructure environments
- Humanitarian support and conflict vulnerable environments
- Compliant operations across multiple legislative environments
- Tracking and real time in-transit visibility options
- End user training in remote and hostile operating environments
- Storage options in G4S secure compounds and vaults.

Our Vision

To become the leading partner of choice for the provision of broad spectrum risk management and support services in complex, low-infrastructure and challenging environments.

Our Mission

We will design, deliver and execute cost efficient risk management and support services that enable our customers to conduct their business safely and successfully in complex, low-infrastructure and challenging environments.

Last Mile Specialists

- G4S specialises in last mile logistics networks for a wide range of clients ensuring timely deliveries to the final destination. Our capabilities include:
 - Ability to deliver and collect from remote locations around the world
 - An established network of internal fleet assets and partner options.
 - Delivery into remote low-infrastructure locations, including conflict affected areas.
 - Supply chain wide Risk Assessment for each shipment
 - Standard Operating Procedures for each shipment

Case Study: Our Last Mile Work in Kenya, Africa

In Kenya, G4S operates a domestic courier and logistic business with a network of 146 drop off points, representing over 80% coverage of the country's main commercial centres.

Our last mile logistics service in Kenya has 15,000 employees who:

- Transport 70% of Central Bank cash in circulation
- Provide armoured vehicles and armed police escort
- Form the largest national courier service in more than 130 locations
- Provide warehousing and inventory management services
- Provide vault storage and document archiving services
- Education Sector – G4S distributes books, equipment and other learning materials for leading publishers and suppliers across Kenya. This involves last mile connections to all schools in the country.
- Provision of Medical and Laboratory Supplies - G4S distributes medical supplies and equipment to hospitals, clinics and dispensing chemists across the country managing more than an estimated 40% of all in-country (sector) pharmaceutical distribution.
