

REMOTE SITE SUPPORT SERVICES

G4S Risk Management delivers

G4S Risk Management provides remote site services and facilities management capability in low infrastructure, conflict afflicted and challenging markets. We offer complex programme management that delivers comprehensive end to end solutions to our customers in remote and high risk ventures. Services include security, facilities management, life support and fleet management.

ABOUT US

Backed by the global corporate footprint and purchasing power of G4S plc, G4S Risk Management is a leading provider of risk mitigation, secure support services and integrated solutions to governments, international agencies and multinational corporations, wherever they may operate.

OUR REMOTE SITE SUPPORT

Complex Programme Management

Fleet Management Services

Facilities Management Services

Automotive Aftersales Services

Remote Medical Services

Complex Programme Management

G4S works closely with customers to design and deliver life safety and security infrastructure for oil and gas sector, renewable energy sector and commercial ventures in remote sites. This includes areas of post conflict and low infrastructure complexity.

Fleet Management Services

10 years' experience of delivering self-sufficient fleet management and maintenance operations in Iraq and South Sudan for fleets of over 300 vehicles.

G4S has a long history and demonstrable experience of delivering large scale distributed fleet management and maintenance programmes, for example, through the self-delivery of such services to a 350 strong fleet of soft and armoured vehicles in Iraq. We will establish and operate workshops to maintain or refurbish your fleet assets in complex remote environments, including armoured vehicles.

G4S Risk Management

Our Vision

To become the leading partner of choice for the provision of broad spectrum risk management and support services in complex, low-infrastructure and challenging environments.

Our Mission

We will design, deliver and execute cost efficient risk management and support services that enable our customers to conduct their business safely and successfully in complex, low-infrastructure and challenging environments.

Facilities Management

G4S provides site management and a full range of Hard Facilities Management and Life Support services including power generation, mechanical and electrical services maintenance, building fabric maintenance and fuel management. Soft Facilities Management services include: food/water supply, catering, reception, accommodation and office management, housekeeping, janitorial and tailoring.

Remote Camp Services include cleaning and laundry Services, Ground Maintenance including Gardening Services, Ground Cleaning, Fumigation/Pest Control and Garbage/Solid Waste Collection and Disposal, Minor Civil-Engineering, electrical, plumbing, maintenance and Repair Works.

Automotive Aftersales Services

We operate an international supply chain directly with Original Equipment Manufacturers (OEM) based in Europe to supply automotive spares to markets as diverse as South Sudan, Kenya, Sierra Leone, Iraq, Afghanistan and Lebanon. Our aim is to offer customers the confidence to predict budget forecasts and equipment life-cycles accurately for planned or on-going investments in transport fleets.

Remote Medical Services

We deliver onshore and offshore medical support and training programmes globally into remote, austere, low infrastructure and conflict affected environments. Services are provided both through direct delivery and teaming arrangements, and include: Occupational Healthcare; Medical Supply Chain Management; and, Training and Development. We have the capacity and experience to deploy General Medical Practitioners, Registered Nurses, and Emergency Medical Technicians at national scale into mission support roles for government agencies, multi-lateral organisations, and large industrial corporations operating in remote and hostile environments. Training courses and modules are broad spectrum and accredited by UK bodies including BTEC and the Royal College of Surgeons, and range from First Person on Scene and Medicine in Remote Areas to Major Incident Medical Management, and Pre-hospital Trauma and Life Support.
